*Tests for creating/updating Faculty, Degrees, Courses, Sections, Clinical Sites, and Documents*

**General - Creation**
- Test multiple form submissions before leaving page ✅
- Form should reset after submission ✅

**General - Updating**
- Profile page should update with new data when edit is canceled ✅

**Faculty - Creation**
- Test case where all fields are filled out ✅
- Test case where only required fields are filled out ✅
- Test case where form should not submit if required fields are missing ✅
- Test active faculty logic upon creation ✅
- Test field error messages ✅

**Faculty - Updating**
- Test case where fields are replaced with new values ✅
- Test case where filled in fields are now blank ✅
- Test case where empty fields are now filled ✅
- Test active faculty logic upon update ✅
- Test field error messages ✅

**Degree - Creation**
- Test case where all fields are filled out ✅
- Test case where only required fields are filled out ✅
- Test case where form should not submit if required fields are missing ✅

**Degree - Updating**
- Test case where fields are replaced with new values ✅
- Test case where filled in fields are now blank ✅
- Test case where empty fields are now filled ✅

**Course - Creation**
- Test case where all fields are filled out ✅
- Test case where only required fields are filled out ✅
- Test case where form should not submit if required fields are missing ✅
- Test case where Course Code is the incorrect length ✅

**Course - Updating**
- Test case where fields are replaced with new values ✅
- Test case where filled in fields are now blank ✅
- Test case where empty fields are now filled ✅
- Test case where Course Code is the incorrect length ✅

**Section - Creation**
- Test case where all fields are filled out ✅
- Test case where only required fields are filled out ✅
- Test case where form should not submit if required fields are missing ✅
- Test no clinical site value on creation ✅

**Section - Updating**
- Test case where fields are replaced with new values ✅

- Test case where filled in fields are now blank ✅
- Test case where empty fields are now filled ✅
- Test removal of clinical site ✅

**Clinical Site - Creation**
- Test case where all fields are filled out ✅
- Test case where only required fields are filled out ✅
- Test case where form should not submit if required fields are missing ✅

**Clinical Site - Updating**
- Test case where fields are replaced with new values ✅
- Test case where filled in fields are now blank ✅
- Test case where empty fields are now filled ✅

**Document - Creation**
- Test case where all fields are filled out ✅
- Test case where only required fields are filled out ✅
- Test case where form should not submit if required fields are missing ✅

**Document - Updating**
- Test case where fields are replaced with new values ✅
- Test case where filled in fields are now blank ✅
- Test case where empty fields are now filled ✅

## *Changes and Additions for sprint 5 that needed testing:*

### *In any view:*

- *Added a wall that makes it so only logged in users can access the website.*

| Tests | Success/Fail |
|---|---|
| Create Faculty page | ✅ |
| Add Degree page | ✅ |
| Add Course page | ✅ |
| Add Section page | ✅ |
| Add Clinical Site page | ✅ |
| Upload Document page | ✅ |

| | |
|---|---|
| Faculty List page | ✅ |
| Degree List page | ✅ |
| Course List page | ✅ |
| Section List page | ✅ |
| Clinical Site List page | ✅ |
| Document List page | ✅ |

Example result (trying to create a document when not logged in):

```
Cannot GET /create-document
```

### *In Log-in view:*

- *Added user authentication with username and password.*

| Tests | Success/Fail |
|---|---|
| Successful log in with correct credentials | ✅ |
| Failed log in with wrong credentials | ✅ |
| Session is remembered by the website | ✅ |

Example result (before):

# Otterbein Nursing Login

**Username**

Username

**Password**

Password

Sign in

(After using correct credentials):

# Otterbein Nursing Login

**Username**
