Comments:

Great job!

You made a good start, but I would have liked to have seen a couple more stories completed.

Your implementation looks good, even if you'll have to change your approach on some elements.

Eventually, I'd like to see some automated testing, but the manual testing is good for now.

I won't take a point from the retrospective, but I would much prefer it if the headings or the body were formatted differently so that it was faster to tell them apart.
